IMPLEMENT YOUR GREEN LENDING STRATEGY WITH THE EXPERIENCE OF PROFESSIONALS TO POSITION FOR SUCCESS

The Global Climate Partnership Fund (GCPF) supports your bank in building a green portfolio in your market. The most successful green lending programs have undergone a deliberate strategic planning process. By providing specialist knowledge and capacity required to implement your green lending strategy, GCPF supports your bank to unlock its full green lending potential.

In coordination with your bank, GCPF will select and mandate specialized consultants to:

- Implement your green lending strategy from a technical perspective
- Identify EE/RE investments in line with your business and green lending strategies
- Support your bank to systematically offer green loans and advice to clients
- Support your bank on technical aspects related to awareness raising and capacity building
- Facilitate reporting and monitoring according to best international practice of your green lending portfolio

BENEFITS FOR YOUR BANK

- Accelerate the implementation of your bank's green lending strategy
- Receive technical support to raise awareness for green lending offering among clients and your institution
- Receive technical support in marketing and business development

CONDITIONS FOR SUPPORT

Your bank:

- Has entered into a partnership with GCPF
- Has a green lending strategy endorsed by executive management
- Appoints a person to act as the main contact for collaborating with the local consultant
- Will accept, and is willing to provide, relevant information and feedback within the context of this project with the TA team
- Ensures access to all relevant information and provide costs for local transportation for client visits as needed for the consultant

HOW TO ACCESS GREEN LENDING TECHNICAL KNOWLEDGE WITH GCPF

About the GCPF Technical Assistance Facility:

The Global Climate Partnership Fund (GCPF) uses public funding to leverage private capital in order to mitigate climate change and drive sustainable growth by providing financing for energy efficiency (EE) and renewable energy (RE) markets in developing and emerging markets. It is managed by responsAbility Investments AG, a leading asset manager in the area of development investments.

The GCPF's Technical Assistance Facility (TA Facility) is a separately established, donor-financed association managed by responsAbility Investments AG. The TA Facility operates independently from the fund. It is sponsored by the German Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety and the United Kingdom's Secretary of State for Business, Energy & Industrial Strategy.

The GCPF TA Facility was established to assist the Fund's partner institutions in overcoming challenges and scaling the impact of their green lending operations. The TA Facility aims to strengthen the capacity and know-how of partner institutions to help them realise the EE/RE market potential and position themselves as leading banks for green lending in their markets. To this end, it offers them access to qualified and specialist consultancy services from international and local experts.
