## ENHANCE CAPACITIES IN RENEWABLE ENERGY PROJECT FINANCE IN LINE WITH INTERNATIONAL BEST PRACTICES.

Project Finance is a powerful way to respond to the increasing demand of infrastructure by financing renewable energy power projects. GCPF can help you enhancing the capacities and analytical skills of your Project Finance team in line with international best practice.

The training is conducted by a professional trainer with 20 years of experience in the power and renewable energy sector, also in emerging countries, both as a financial advisor to international lenders as well as lecturer for financial institutions, industrial corporations and governments. The training, which takes 3–5 days, is tailored to your local context and based on an assessment of your needs.

### EXPECTED RESULT:

- Have both your competences and needs assessed by an experienced trainer;
- Define which milestones you need/would like to achieve to meet international best practice standards;
- Work with case studies focused on the challenges of your local market and which have been specifically designed to illustrate the issues and techniques covered in the training.
- Have access to follow-up support where you can reach out to the trainer when applying some of the new skills to your projects.

### BENEFITS FOR YOU

- Expand your team's knowledge as well as increase syndications and other business opportunities by aligning to international best practices.
- Have access to a highly experienced project finance professional, who has a strong reputation as a trainer, with a willingness to support your project finance development.
- Get ready for co-financing and/or securitizations with international lenders.

## CONDITIONS FOR SUPPORT

### Your financial institution

- Has entered into a partnership with GCPF;
- Already have Project Finance experience and a dedicated team;
- Committed to do a needs assessment;
- Will actively participate in the training preparation and execution;
- Commits itself to conducting pre- and post-training assignments;
- Will have internal dedicated staff or department, who will coordinate the training preparation and execution (incl. logistical arrangements, venues, etc.);
- Will pay for all local costs related to the training:
  - The printing of material;
  - Training location.<sup>1</sup>

### PACKAGE OFFERED BY GCPF TECHNICAL ASSISTANCE:

- Flexible and tailor-made project finance training that will cover specific needs, enabling you to meet international best practices requirements in Renewable Energy projects;
- Professional trainer to guide, facilitate and moderate the training.

<sup>1</sup> The training will take place on the premises of the Bank or at an external venue, organized by the Bank, in which case the GCPF TAF can contribute up to 50% of the costs up to a max. amount of USD 1,500.

### PROCESS ABOUT HOW TO SUBSCRIBE?

### About the GCPF Technical Assistance Facility:

The Global Climate Partnership Fund (GCPF) uses public funding to leverage private capital in order to mitigate climate change and drive sustainable growth by providing financing for energy efficiency (EE) and renewable energy (RE) markets in developing and emerging markets. It is managed by responsAbility Investments AG, a leading asset manager in the area of development investments.

The GCPF’s Technical Assistance Facility (TA Facility) is a separately established, donor-financed association managed by responsAbility Investments AG. The TA Facility operates independently from the fund. It is sponsored by the German Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety and the United Kingdom’s Secretary of State for Business, Energy & Industrial Strategy.

The GCPF TA Facility was established to assist the Fund’s partner institutions in overcoming challenges and scaling the impact of their green lending operations. The TA Facility aims to strengthen the capacity and know-how of partner institutions to help them realise the EE/RE market potential and position themselves as leading banks for green lending in their markets. To this end, it offers them access to qualified and specialist consultancy services from international and local experts.
